

Water of Life's
Corporate Drilling Partnership

Getting started

Getting started is easy—simply give one of our staff members or ambassadors one hour to meet with your leadership team. We'll discuss the program, the number of villages you'd like to impact, and identify your team's own **Corporate Drilling Ambassador**.

We'll follow up on a date you determine, with a brief presentation to your team to:

- Share the vision about Water of Life's mission to provide help to the needy and hope to the hurting
- Show the impact

We'll share an example of the power of a lot of people, doing a little thing to make a big impact.

Sample company, company matching employee contributions \$1-for-\$1:

- Commitment: 1 well
- Based on 24 pay periods:
 - 15 employees = \$4.87/paycheck
 - 20 employees = \$3.65/paycheck
 - 30 employees = \$2.44/paycheck

Follow-up & launch

We'll then follow up with you and your leadership to decide a number of wells that you want to commit your company to provide over the course of each year. As each well costs around \$3,500, some simple math will show how your employees opt-in to give this small amount each paycheck and before long, your organization will have provided water to thousands more people across the world.

We'll help create a corporate goal designed especially for your company and your staff, and everyone will have the opportunity to opt-in to participate in your goal. With most giving levels around \$3-5 per paycheck, it's a small commitment that makes a big impact.

We'll then provide customized collateral that you can have permanently on location, promoting your company's involvement in changing lives and sharing your progress toward reaching your goals as a team.

Make an impact! Join our mission to love the unreached and embrace the untouchable, one village at a time through a corporate partnership. Become a Water of Life Corporate Drilling Partner!
